*Hist/Bio Note:* \_\_\_\_ Correspondence primarily reflects the construction of the Main Garden and Village, as well as furnishing plans of the Main House. A small amount of correspondence was generated between 1925 and 1952. This period is referred to as the Heirs Period that begins with James Deering's death and ends when the Estate was conveyed to Miami Dade County. During the Heirs Period, there is correspondence with Paul Chalfin about restoring the Estate after hurricanes in 1926 and the 1930s damaged the property. Post-1930 correspondence included correspondence between Chaurcey McCormick and the city of Miami about opening Vizcaya as a public museum, an event that happened on March 8, 1952.

*Corporate:*

*Arrangement:* Correspondence was first processed in the 1960s, when it was arranged by topic. At this time, letters were written on directly in lead pencil or red pen; topic terms were written on the original correspondence records. Other records dating from after James Deering's death were intermingled with the correspondence records at this time. In 2008, correspondence was arranged chronologically.
