

FINDING AID FOR:
Estate Era Architectural Drawings

Prepared By:

Ayla Toussaint, MILS

2023-06-23

Collection Description

Collection #: A1

Collection Title: Estate Era Architectural Drawings

Creator:

Location:

Inclusive Dates:

Bulk Dates: 1909-1925

Extent:

Restrictions:

Assoc Coll Matl:

Hist/Bio Note: The bulk of the architectural drawings were created during the planning and building of Vizcaya. These drawings were sent between key players in the creation of Vizcaya. This list includes architects Burrall Hoffman and Phineas Paist, artistic director Paul Chalfin, superintendents William Sturrock and William MacLean, and James Deering himself. The Estate Correspondence collection contains many letters referencing these architectural drawings and may provide additional context to the materials.

Scope: This collection consists of architectural drawings, blueprints, and sketches for the design and building of Vizcaya's main house, gardens, and village. In most cases, the author is unknown, although in some cases sheets are signed by the architect or by the architectural firm overseeing the project. The drawings are dated and labeled with job numbers and descriptions, including notes of revisions to earlier plans. The drawings do not denote whether they were executed as drawn, or if changes were made to the final design. Of particular interest are the sketches by Paul Chalfin detailing design elements throughout the house and gardens. This record group has been digitized in its entirety, with the exception of duplicate sheets. Access to physical drawings is restricted.

Notes:

Topic:

Geographic:

Personal:

Corporate:

Arrangement: ___This collection is divided into 47 series based on the original order of the architectural drawings. This order is defined by job name, job number, and job abbreviations. The complete original order of the collection and how this system was devised is unknown.
